MODULAR POWER.
INFINITE POSSIBILITIES

SAGA
YOUR STORY

At **the61**, design is not just about function — it's about presence. Born from a vision to reimagine the overlooked, we craft elite, minimal, and modular essentials that quietly transform spaces.

The **SAGA** series is a reflection of this philosophy - a refined, power system engineered for modern living. From intimate homes to dynamic workspaces, SAGA offers a seamless blend of form, flexibility, and safety, tailored to how people live and evolve.

Every detail is intentional. Every edge, precise. **SAGA** isn't just about powering devices — it's about powering lifestyles with purpose and elegance.

# THE PURPOSE OF EXISTANCE

## Mission:

To innovate and deliver adaptable, high quality solutions that enhance daily life across the globe, today and tomorrow.

## VIsion:

Pioneering a future where technology seamlessly integrates into every aspect of life, making homes and workplaces smarter, safer, and more sustainable.

## Core Values:

We blend Australian precision with Indian practicality to create smart, reliable, and eco-friendly power solutions. Designed for global needs, our products prioritize quality, sustainability, and user-friendly innovation, making everyday life easier for everyone.

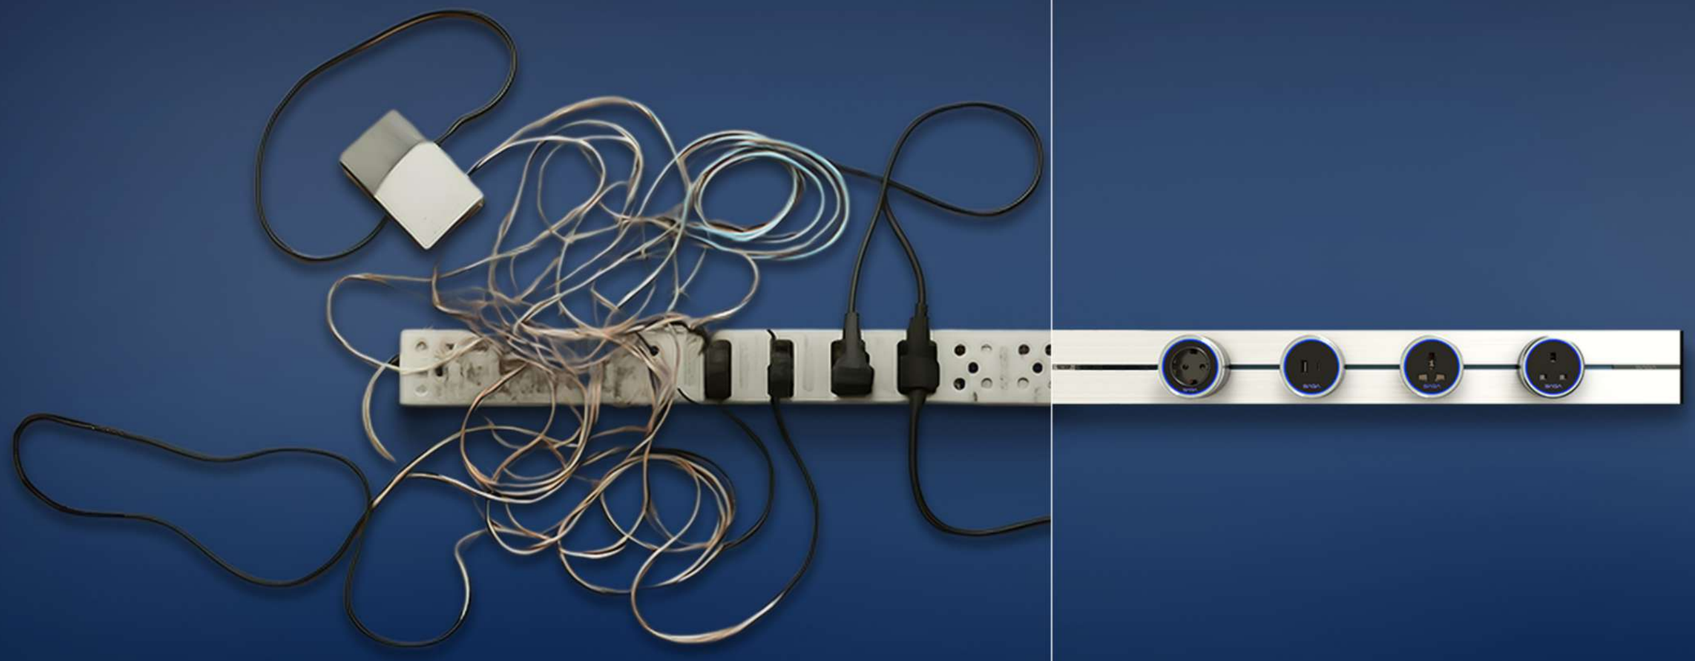

## Strategic Positioning:

SAGA stands out with adaptable, modular products that grow with user needs. We combine affordability and quality to serve both emerging and developed markets, aiming for a future where smart, sustainable technology seamlessly enhances everyday life.

# FROM TANGLED — TO SLEEK

# HOW TO USE

**STEP 01:**
**SNAP IT IN**

Insert the SAGA socket anywhere along the Power Track rail, no alignment needed.

**STEP 02:**
**TWIST TO POWER**

Rotate 90° clockwise to activate the secure electrical connection with built in safety lock

**STEP 03:**
**SLIDE. SWAP. REPEAT.**

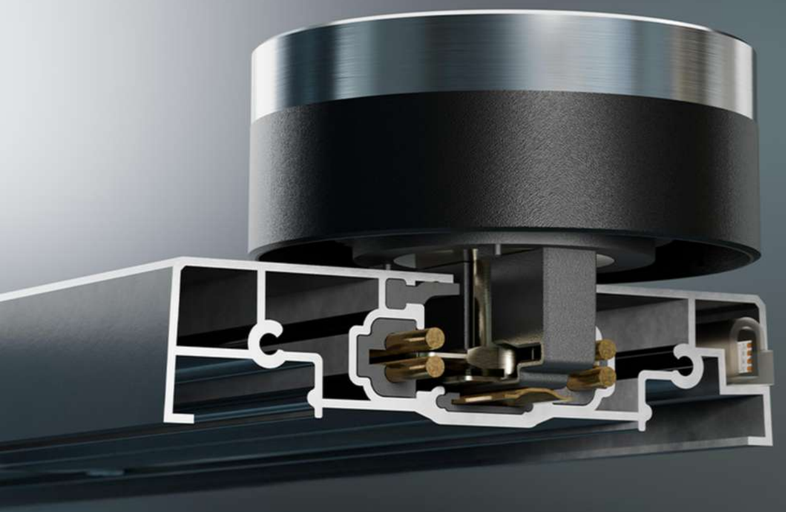

Move, remove, or add sockets freely, customize power access where and when you need it.

SAGA
YOUR STORY

# THE TRACK IS MADE OF ALUMINUM ALLOY, WITH ANODIZING PROCESS

The aluminum alloy material is solid and durable, and the surface is easy to clean, and it is not afraid of oil stains. The copper core is thick enough and strong enough. Five 3.5mm copper bars are equivalent to 8 square meters of power lines, and can withstand 8000 W power at most

# INTERNAL FUNCTIONALITY

At the heart of the Saga Power Track lies a precision engineered internal rail system designed for safe, efficient, and seamless power distribution.

All components are sealed within a fire retardant aluminum body for maximum safety.

## BUILT FOR SAFETY:

- Safety always comes first at Saga. It's not just a priority, it's our foundation.
- Every product we create goes through the rigorous 1mm probe test, ensuring no object larger than 1mm can reach live wires.
- That's why our PowerTrack and Adapters are equipped with advanced safety systems that ground any conductive material on contact. Built-in surge and heat protection also ensure your devices stay secure, no matter what.

## PROTECTED INSIDE OUT:

Engineered with specialized coatings and protective seals, our PowerTracks and Adapters are built to resist water damage, ensuring long lasting durability and added peace of mind.

## SEAMLESS MOTION
## **ACTIVATION**

A graceful wave of your hand brings the light to life effort- less, touch free brilliance.

**LUXURY IN EVERY GLOW:**

The soft ambient light adds a modern, elevated aesthetic to any space.

**PERFECT FOR MIDNIGHT MOMENTS**

Navigate dark rooms with ease, without cluttering your space

SAGA
YOUR STORY

# SMART CHARGING, BUILT IN

Saga Power Tracks come equipped with integrated USB and Type C ports. Whether you're powering your phone, tablet, or the latest tech gadgets, enjoy direct and fast charging.

SAGA

# POWER, WITH A TWIST

Just rotate the adapter 90° to activate power.

1500 mm

Holds up to 15 adapter

1000 mm

Holds up to 10 adapter

500 mm

Holds up to 5 adapter

# PRODUCT LINE

Every Saga product meets the highest global safety standards, fully compliant with **International Electrotechnical Commission (IEC) guidelines.** With 58 patents under our name, we're proudly **certified by CE (Conformité Européenne)** and **FCC (Federal Communications Commission),** setting a new benchmark in secure tech.

Environmental responsibility is at our core. Our products are RoHS compliant, crafted from recyclable, eco-friendly materials because protecting the planet is just as important as powering it.

SAGA
YOUR STORY

## R SERIES
RECESS TRACK

Designed to integrate seamlessly into modern workspaces, the Saga Recessed Track delivers reliable power with a refined simplicity that complements its surroundings

## S SERIES
SURFACE TRACK

designed to integrate seamlessly into modern workspace, the saga recessed track delivery reliable ower with a refined simplicity that complements its surroundings.

SAGA

# S SERIES

## SURFACE TRACK

The S Series comes with an exclusive motion activated LED strip, lighting up your space on cue.no more searching for switches.

# Technical Specifications:

| Product | Length | Adapter Capacity | Rated Voltage | Rated Current | Max Power Output | Weight (Approx) |
|---|---|---|---|---|---|---|
| S 500 | 500mm | Up to 5 adapters | 250 V AC | 32 A | 4000 W | 1.2 kg |
| S 1000 | 1000mm | Up to 10 adapters | 250 V AC | 32 A | 6400 W | 2.0 kg |
| S 1500 | 1500mm | Up to 15 adapters | 250 V AC | 32 A | 8000 W | 2.8 kg |

All power tracks are built with the same precision-engineered core, differing only in length and capacity.

# ADAPTERS

SAGA adaptors are the modular interface between your devices and the power track, available in multiple configurations to suit every need.
Each adaptor snaps effortlessly into surface or recess tracks.
All units meet IC safety standards with built-in surge protection, overload reset, and child-proof shutters.

# Voltage and Amperage ratings

| Product | Product Weight | Product Size | Rated Voltage | Rated Current | Rated Power | Operating Temperature |
|---|---|---|---|---|---|---|
| S 49 | 0.086 kg | 71.5mm x 71.5mm x 38.6mm | 250 V AC | 15 A | 3750 W | -20°C - 45°C |
| S 44 | 0.080 kg | 71.5mm x 71,5mm x 29.6mm | 250 V AC | 13 A | 3250 W | -20°C - 45°C |
| S 91 | 0.080 kg | 71.5mm x 71.5mm x 29.6mm | 250 V AC | 13 A | 3250 W | -20°C - 45°C |
| S Ultra | 0.080 kg (est) | 71.5mm x 71.5mm x 29.6mm (est.) | 250 V AC | 13.25 A (USB - C) | 100 W x 2 | -20°C - 45°C |
| S One | 0.070 kg (est) | 71.5mm x 71.5mm x 28.0mm (est.) | 250 V AC | 10 A (combo) | 2500 W (est) | -20°C - 45°C |

All Models comply with international electrical standards (IEC 60884 - 1) and are tested for up 10,000 insertions.

# CUSTOMIZED TO MATCH YOUR SPACE

Your interior is a reflection of your style and now, your power tracks can be too. With Saga's customized color options, you're no longer limited to the basics. Whether it's a bold statement or a seamless blend, we craft your power tracks in the shades that speak your language.

Choose from a range of finishes and hues or share your vision, and we'll match it.

# VENUS

# TAILORED TEXTURES

Saga takes personalization one step further offering not just color customizations, but textured finishes that blend beautifully with your interiors.

# BRING NATURE INTO YOUR SPACE

Saga's **Wood Texture** finish brings the warmth and richness of natural wood into modern living. Designed to complement earthy tones, wooden floors, or minimalist aesthetics, this finish adds a tactile depth and visual harmony to any space.

Crafted with precision, it merges funtionality with organic elegance making your power system feel like a seamless part of your interior story.

## LUXURY CAST IN STONE

Saga's **Marble Texture** finish brings timeless sophistication into your environment. Inspired by the elegance of natural stone, this design adds a refined, high-end touch — perfect for premium interiors, contemporary kitchens, and statement spaces.

Where innovation meets opulence, the marble finish transforms your power track into a design element that speaks of class and craftsmanship.
