Any way

enjoy working freely

Converse. Collaborate. Create.

Conversations that flow, Ideas that grow, Creativity that flourishes.
Empowering teams to freely generate output.
Through collaboration born from Any way,
creating the innovations that shape the next era.

Any way series is designed for the office of the new era,
which focuses on mobility, comfort, and design.

While the world has changed dramatically,
and our workstyle has diversified in just a few years,
we have always valued the synergy created
when people come together.

Communication and creativity are accelerated and generated
when people, space, and furniture move around
in a positive and dynamic manner.

KOKUYO proposes an office
"where people want to gather more" with Any way

Enjoy working freely

Any way is a collection of furniture that allows
each individual to freely immerse in collaboration,
using it in any way one desires.

Expand the converse - within and out of team.

Team

Dive into team discussions.

Any Chair

Simple and light design, comfortable to use, and easy to carry.
A chair that can be selected according to the work scene.

Small-diameter casters for light movement

Coming with small-diameter casters in the same color as the main body.
Free maneuverability supporting your posture.

Stacking for easy storage

No need for lifting, smooth movement.
Efficient storage.

<Stack Stool / Horizontal stack>
Stacking capacity : 5 chairs (H1100) (Stacking pitch : 125mm)
<Chair / Vertical stack>
Stacked horizontally by flipping up the seat. (Stacking pitch : 250 mm)

High setting for open conversation

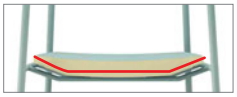

A compact high stool and a high bench for multi-directional seating. The height of the stools encourages open interaction.

Optimal height for ease of use.

A versatile stool for active use.
Comfortable and secure seating.

Seat structure

Thick molded urethane is layered over a base layer with a deep center,which provides seating comfort and excellent durability.

PP back plate with fungicide
(Chair and High Chair only★)

99% reduction of bacteria after 24 hours compared to surfaces of products without antimicrobial treatment. Antimicrobial resistanceis based on test results in accordance with the international standard ISO 22196.

★Antimicrobial performance is for the back plate only. The antimicrobial treated portion of this product reduces certain bacteria on the surface, but does not guarantee the prevention of infection.In addition, the antimicrobial treatment is not intended to treat or prevent disease.

Any Table

Light and maneuverable with a refined top and castors on one side.
A collaboration table for a new era.

Single-sided castors for smooth layout

Small-diameter castors in matching color as the main body on single-side.
The table can be easily moved by lifting the tabletop to make layout change.

Edgeless tabletop

Steel painted finish realizes edgeless design.
The entire tabletop is the same color with a sense of unity.

<Caution>
- When moving the 2-castor table, lift the top board on the adjuster leg side.
- There is no stopper function on the castors. The table may shake or move easily due to the characteristics of the product.
- The surface of the tabletop may show scratches or changes in luster depending on the conditions of use compared to melamine tabletop.

Beamless design with comfortable space

Reducing interference with legs and chairs,
helping to sit comfortably.

Enhance comfort with optional parts

We offer parts such as bottle holders and clamp hooks to help organize your personal items and maximize desk space.

Any Sofa

The voluminous design creates a casual scene.
A unit sofa with castors on the front side for effortless moving.

Frame shape for enhanced mobility

The upper part of the frame, which has an arched shape, provides a handle that is easy to grasp when moving.
The back cushion moderately holds and keeps the posture.

Angled frame design

The back frame is sloped from bottom to top.
The handles are easy to grasp even when placed against a wall.

Fixed back cushion

The back cushion is secured to the seat with a fastener.
There is no need to worry about the cushions falling when moving.

Square shape with castors

Square shaped sofa for easy layout.
Small-diameter castors in matching color as the main body are on the front side for smooth movement.

Soft design

Soft design seat and cushion provide both postural support and seating comfort for work.

Any Wall

Bring pleasant project work for both real and hybrid.
Wall on castors to allow teams to create their own base of operations.

Large, highly maneuverable castors

Easily adapt your workspace layout with smooth-movinglarge castors.
Built-in locks provide secure positioning when needed.

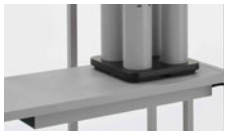

Large castors

Heavy-duty large castors designed for both durability and maneuverability.
Equipped with stoppers that can be switched between 'Free' and 'Lock' modes.

Simple frame design expands possibilities

Optional parts can be mounted anywhere on the frame structure. Extensive customization options help you create your ideal comfortable workspace.

Option

<Cable Tray>
- Mountable under shelf (only at both ends of wall).
- Internal dimensions after installation / W500×D175×H48

<Monitor Bracket>
- Compatible with corner wall and straight wall (standard type). Please refer to Display Mounting Requirements.

Improve work efficiency with a monitor screen

Compatible with large monitor installation, making hybrid work more comfortable and efficient.

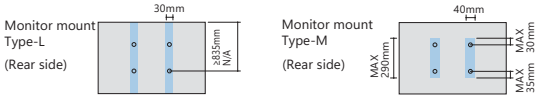

<Display Mounting Requirements>

- One set can be mounted at the center of W1600 straight wall.
  *Cannot be mounted on W1075 straight wall or corner wall.
- Recommended screws : M8, M6
  *Screws larger than M8 cannot be used.
- Compatible displays : 44-70 inches, up to 40kg
- VESA Standard : Please confirm one of the following pitch measurements :
  Horizontal : 200, 300, 400, 600mm, Vertical: 200, 300, 400mm

- One set can be mounted on W1600 or W1075 straight wall.
  One unit can be mounted on each side of corner wall.
- Recommended screws: M6, M4
  *Screws larger than M6 cannot be used.
- Compatible displays : 12-43 inches, up to 12kg
- VESA Standard : Please confirm one of the following pitch measurements :
  Horizontal : 100, 200, 400mm, Vertical : 75, 100, 200mm

<Precautions for Display Selection>

- Monitors with VESA mounting holes located 835mm or more from the top edge cannot be mounted.
- Monitors with terminals or protrusions in this area cannot be mounted.

Custom Option

Optional parts compatible with Any way
for a more comfortable work style.

Any Wagon

For team use or individual use, as you wish.
A wagon with castors that has good footwork.

Compact size for optimal storage

Equipped with highly maneuverable castors,
can be stored under high counters.
Maximizes your workspace.

Optional table extension surface

The wagon's top edge matches the desktop height.
Keep small items on the wagon to free up more workspace.

Extensive selection of storage options

Designate optional felt baskets and clamp hooks for different storage needs -organize both personal items and shared team supplies efficiently.

Grip

Round pipes are curved to create an ergonomic grip, making it easy to carry and move.

Clamp hook (Optional parts)

Clamp hooks can be attached to the flat surfaces at both ends, hanging items weighing up to 2kg.

Any Tool

Lightweight, mobile, and nestable.
Meeting tool crafted for ultimate usability.

Lightly dividing partition screen

Made with translucent fabric that strikes the perfect balance -keeping you aware of your surroundings while creating an ideal environment for focused discussions.

Space-saving, efficient stacking solution

Consistent simple leg design across all models.
Space-saving stackable design when not in use.

Height-adjustable

Optimal viewing height for both seated and standing work.
Two height options available : middle and high position.

Marker tray

Simple-designed trays are attached to both sides of the whiteboard, providing convenient storage for markers and erasers.

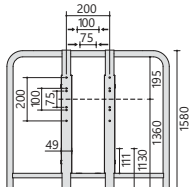

Cable hook

Two hooks are provided on the back of the display stand for cable management.

Monitor Mounting Requirements

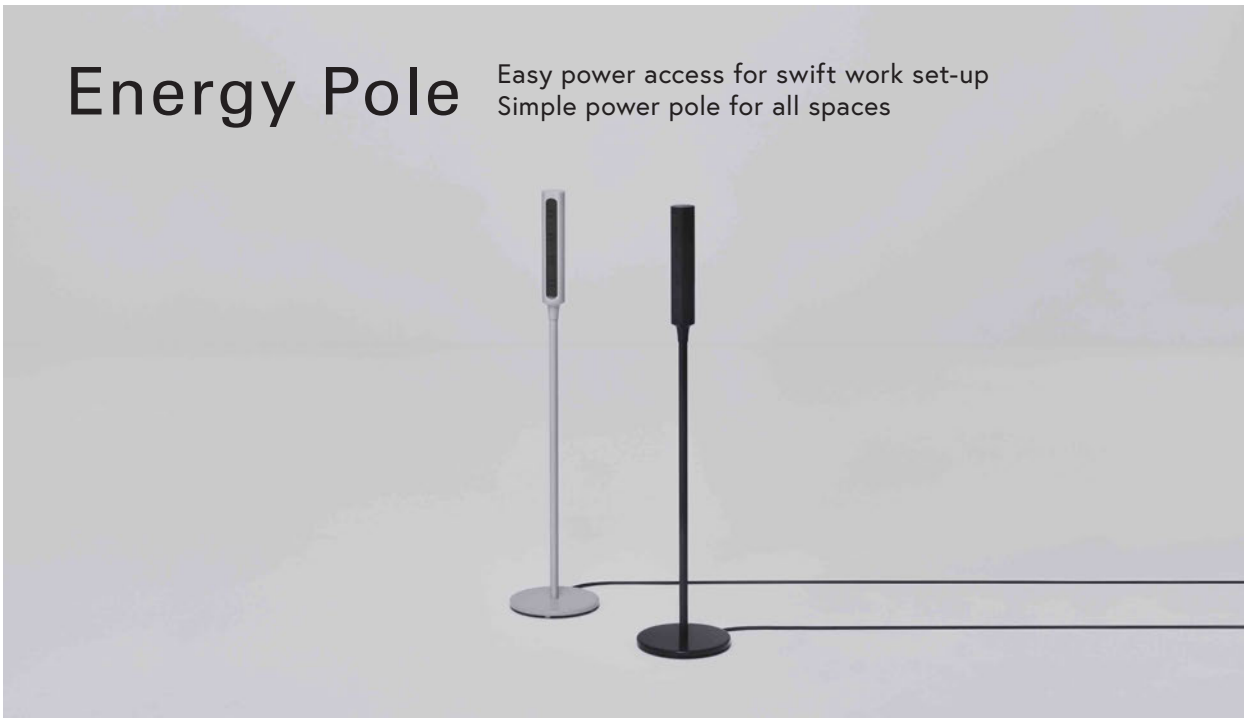

- Recommended screws : M6, M4
  *Screws larger than M6 cannot be used.
- Compatible monitor specifications :
  Size : 12-50 inches
  Maximum weight : 15kg
- VESA Standard : Please confirm one of the following pitch measurements :
  Horizontal : 75, 100, 200mm
  Vertical : 75, 100, 200mm
- Monitors with terminals or protrusions that interfere with the frame cannot be mounted.

Monitor Mounting Position

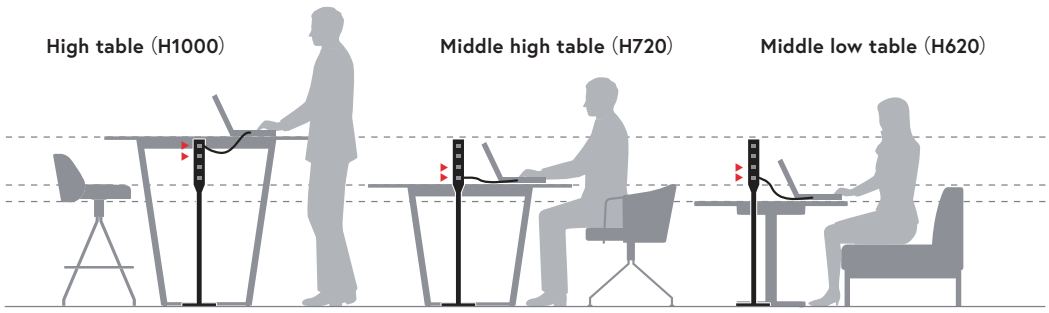

Energy Pole

Easy power access for swift work set-up
Simple power pole for all spaces

Ports for various postures and user-friendly heights

Slim design for placement by the table

Prevents wiring clutter on the desk and makes efficient use of space.

Easy to hold with one hand

(Weight: 2.2kg)

The lamp on the top surface lights up when power is supplied.

Energy bottle

Freed from the confines of power outlets, enabling greater flexibility in work styles.
A mobile battery suitable for any scenario where both people and furniture are move actively.

Conveniently portable compact size.
Similar in size to a standard 500ml bottle.

Anti-tipping stopper, allowing for safe horizontal placement.

Equipped with two Type-C power ports (18W & 65W).
Direct charging through the ports is possible without using a charger.

Easy-to-read LED indicators on top monitor battery status and safety conditions including temperature and current levels.

Power up multiple devices.

<Chair, Stack stool, High chair, High bench, Table, Sofa, Tool>

Castor : Features "polyurethane-wrapped castors" designed to minimize scratching on hard floors including wood flooring.
This product is not compatible with rubber castors.
*Not recommended for use on cushioned flooring as floor damage may occur.

<Chair, High chair>

Fixed leg specifications available as custom order. Please contact us for details.

<Energy bottle, Charger>

<Energy bottle>
- This product is for indoor use only. Avoid high temperature, humidity, and direct sunlight.
- This product cannot be used with life-support equipment or critical devices where social/public damage may occur if power supply fails during use.
- Regular charging is required as leaving the battery at low power may deteriorate performance and prevent future charging. When storing long-term, please check battery level once every two months, considering natural discharge.
- USB cable not included. Please prepare separately a cable meeting these specifications: Standard: USB PD 2.0/3.0 compatible, Output: 20V/3.25A (65W), Connector: USB Type-C
- Battery life is 500 full charge cycles. Performance will gradually decrease after 500 charges.

<Charger>
- The included AC adapter and power cord are dedicated components. Do not use with other devices, and do not use non-included components.
- When installing multiple chargers, up to 4 units can be connected to a single circuit.

<Chair, Stack stool, High chair, High bench, Table, Sofa, Wall, Wagon, Tool, Energy bottle, Energy pole>
