## Lounge Collection

Perfectly proportioned and with every joint seamlessly finished, Katō's absence of hard edges gives it a soft and gentle aura, supplemented by skilfully upholstered back and seat sections whose lines subtly integrate with the show-wood frame.

Tactile
Sensory

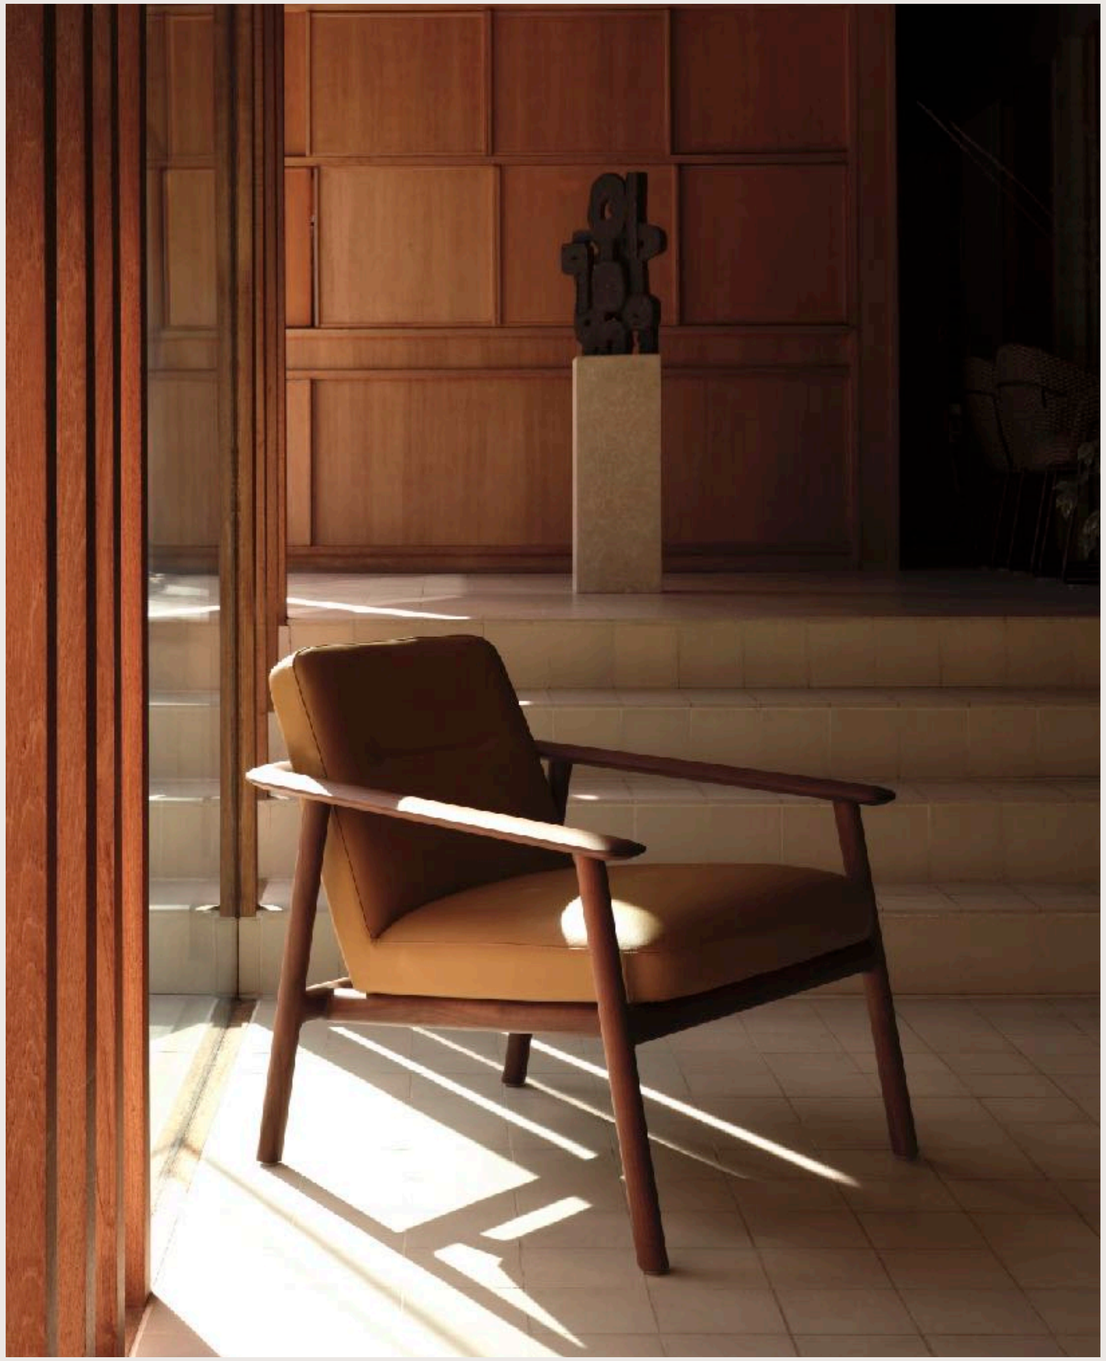

Flowing around the back of the chair in a horseshoe form, Katō's wide, elliptical arm rail invites the sitter to rest their hands upon it and in turn, feel the chair's natural wood grain texture flowing down the arm.

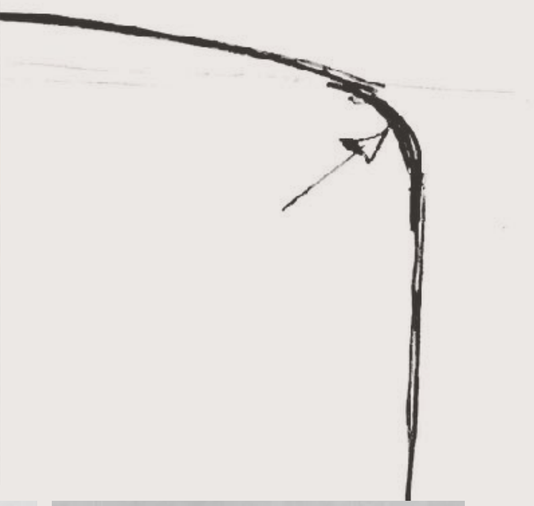

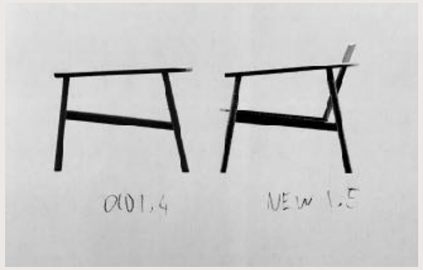

The Japanese respect for timber, nature and craftsmanship has influenced the Katō collection through from initial concepts through to the final production model. With an increased emphasis on organic lines, natural colours, textures and carefully crafted spaces, the result is a more harmonious environment in which to sit. The Kato aesthetic thrives on natural wood textures, hand-crafted joinery and finishing, combined with outstanding upholstery.

Patiently honed through an iterative design process, Katō celebrates Kato's woodworking creativity. With hints of Scandinavian, Japanese and mid-century modern inspiration, it exemplifies contemporary elegance with a timeless, organic quality.

Mori has been designed to complement the Kato collection, sharing the same sculptural design language and refined detailing. With its balanced proportions and crafted materiality, Mori extends the Kato design DNA into a versatile table solution, creating a cohesive aesthetic when paired together in lounge, meeting, or hospitality settings.
